

Senior Consultant/Manager (m/f) Business Technology

Information Services Group (ISG) is a leading technology insights, market intelligence and advisory services company, serving more than 500 clients around the world to help them achieve operational excellence. ISG supports private and public sector organizations to transform and optimize their operational environments through research, benchmarking, consulting and managed services, with a focus on information technology, business process transformation, program management services and enterprise resource planning. With more than 1,400 employees worldwide, we operate in 21 countries. **Intelligent Company. Individual Career. Inspiring Team.**

Our Offer:

- Operate in a fast changing, innovative and high performing digital environment
- Lead interesting transformation projects or project workstreams with DAX30 clients and lead them through their digital transformation journey
- Highly collaborative and supportive working atmosphere
- Be part of an experienced advisory team and network of external partners – a highly collaborative environment of the who's who in the industry

Your Task:

- Identifying and addressing business critical issues thus helping our clients to achieve operational excellence
- Being determined to make a difference and not afraid to challenge the status-quo
- Successfully delivering/leading projects & programs in such areas as:
 - Strategic IT analysis & planning
 - Executive IT Advisory & alignment (i.e. between Business & IT)
 - Target Operating Model Design
 - IT Transformation
 - Complex Program Delivery
 - Digital (i.e. Enterprise Agility, DevOps, Cloud Adoption and Migration, Workplace of the Future, Cyber Security, etc.) and IT/BPO Sourcing
- Leading small ISG teams to quickly becoming accepted as part of the fabric of the client's management team in order to deliver exceptional quality of execution
- Expanding and utilizing their network of contacts to generate leads and opportunities for the practice and the wider ISG firm

Your Qualification & Skills:

- BA or Master's Degree in IT or Business Administration
- Minimum 5 years experience in IT transformation consulting or operational delivery
- Strong recent experience in strategic IT planning, target operating model design and IT transformational programs
- Clear ability to deliver continuously the latest thinking within a highly competitive advisory marketplace
- Facilitation skills, forging consensus around credible, executable solutions
- Passionate about affecting real change applying classical organizational and people change management techniques
- Ability to learn quickly, be a team player, apply structured thinking and strong presentation skills
- Verbal and written fluency in both German and English
- Willingness to travel
